

Mission Central CARE Kit Instructions

All items must be new. Do not wash any of the items as they will be considered used.

Please remove all packaging except for toothbrushes and soap.

All kits are carefully planned to make them usable in the greatest number of situations. Since strict rules often govern product entry into other countries, it is important that kits contain only the requested items - nothing more.

Do **not** include any personal notes or additional materials in the kits.

Squeeze out as much air as possible and seal the bag.
